Our Story ✨

Remember the ToothFairy was founded this June 2024 to address oral education and health disparities in my community.

So many children that I knew grew up without the basic knowledge of how to take care of their teeth, and many families didn't bother in seeing a dentist. I felt compelled to help these children with a sense of urgency that was foreign to me. Wanting to help these children, I founded the nonprofit Remember the ToothFairy (RTF), an organization that works to instill health brushing habits in children through early dental education and exposure. I sought to foster a positive association between these kids and dental hygiene, hoping that they would continue practicing these good habits well into their adulthood. I started with just one member: me.

I hope Remember the ToothFairy's programs can one day be implemented in elementary education nationwide, gaining a reputation for providing a passionate youth community that will better dental health. By uniting people all over the world to join the mission to educate and instill healthy brushing habits in all children from an early age, we will work towards creating a world full of healthier and happier smiles.

Remember the ToothFairy has enabled me not only make an impact on my community with something that I am very passionate about, but it has also been one of the most life-changing experiences as I worked tirelessly to figure out all the in and outs of running and operating a nonprofit. I truly owe it all to the countless young people, nonprofits, companies, and mentors who support the work we do.

Catherine Ka

**Founder and Executive Director
Remember the ToothFairy**

3

Service Programs

1) Education

Visiting elementary schools to teach children ages 5-11 on how to have a good brushing routine through fun and engaging lessons, games, and arts and crafts.

2) Donation

Providing youth Smile Bags filled with dental hygiene supplies to help them get started or continue their dental hygiene journey.

3) Dental Treatments

Allowing children to visit the dentist for the first time

11 Partnerships with Local and International Nonprofits and Businesses:

With 11 company and nonprofit partnerships, Remember the ToothFairy strives to work with like-minded organizations to advance dental education and exposure for children. Our partners understand the importance of an early dental education. From fundraisers to hosting donation drives, these organizations highlight the true meaning of collaboration. We're grateful to have our partners with us.

Currently, we are working to solidify more international and reputable partnerships.

 - Individual - \$100
- **Fundraising** - \$1,000

Support Remember the ToothFairy.

As a nonprofit that has only been operating since June 2024 (6 months), we have already made such a big impact on so many children when it comes to their oral health/hygiene. We care deeply about ensuring the next generation grows up with healthy brushing habits by providing them with the education and resources to do so. Our student-led team is at the core of our mission and services, as we believe young people have the power to change the world
